“The Bozeman Historic Preservation Advisory Board has just advised us the First Presbyterian Church is to be given an Excellence Award for the stained glass windows restoration done last summer by your company and John Wildenborg.

“We know that the quality of the work done played a large role in meriting this award and we want to thank not only John for the quality workmanship but also commend the excellent project teamwork shown by you Gary Gray and John.

“Thank you again for all of your counsel and timely work.”
